

NCR KC4 KITCHEN CONTROLLER

COMPLETE INFORMATION INTEGRATION FOR KITCHEN OPTIMIZATION

In the age of mobility, restaurants that use the NCR kitchen production solution are ahead of the Omni-Channel game because they're better equipped to efficiently manage the ebb and flow of both on-site and off-site orders. That means kitchens managed with NCR solutions can handle the increased business that comes from effective customer engagement. The NCR kitchen production solution can greatly improve customer

satisfaction by helping your staff produce consistently great food quickly and accurately whether the order was placed on-site, online, via mobile app, over the phone or through your in-store kiosk.

The latest generation of NCR Kitchen Controllers is rugged, faster, more energy efficient, and provides greater connectivity to other kitchen peripherals.

Power and Versatility for Optimum Performance

The KC4 comes with a variety of options in regards to RAM, Storage, and OS, allowing it to be versatile for any operation's requirements. The KC4 has one DVI port and three USB 3.0 ports for connectivity. Solid-state makes for a stronger design with fewer moving parts.

The Right Design for The Job

Enabling the NCR kitchen production solution can be challenging because the restaurant kitchen is a rough environment for hardware. The NCR KC4 Kitchen Controller is built with a full brushed aluminum enclosure, preventing typical kitchen contaminants from entering the housing and making it easy to clean. The KC4 can be mounted on the wall, on a radial arm or attached to the KT2200 Kitchen Touch Display using NCR's Quick Release Mounting Brackets.

Optional bump bars and touch-screen monitors can be easily integrated.

KEY FEATURES

- Links directly to Aloha POS Order Entry
- Solid state design - no moving parts
- Continues to function if it loses connection to back office systems
- Integrates with touch screen displays and bump bars
- Flexible mounting options
 - Wall mounts
 - Pole mounts
 - Ceiling mounts
 - Radial arm mounts
- Fully enclosed to protect electronics from corrosive contaminants

TECHNICAL SPECIFICATIONS

PRODUCT DIMENSIONS

- LENGTH 8.11" (20.6cm)
- WIDTH 5.82" (14.8cm)
- HEIGHT 1.76" (4.47mm)
- WEIGHT 2.37lbs (1.07kg)

OPERATING TEMPERATURE

- 32-113 degrees F, 0 – 45 degrees C

STORAGE TEMPERATURE

- 14-122 degrees F, -10 – 50 degrees C

MOUNTING OPTIONS

- Radial Arm/Wall Mount
- Pole Mount
- Ceiling Mount

HUMIDITY

- 10% to 90%
- Non-condensing

OPERATING SYSTEM

- Windows 10 (64 bit) and POSReady 7

DVI OUTPUT

- Single DVI (DVI-I)

ENCLOSURE

- Brushed Aluminum
- Environmentally sealed

PERIPHERALS

- KC4 Quick Release Integration bracket
- NCR Bump Bar
- KT2200 Kitchen Touch Display
